

QUICKSEAM & QUICKSEAM PLUS

DEPENDABLE, REFINED, VERSATILE

Popular for upscale residential and architectural applications, Quickseam and Quickseam Plus are manufactured to be attractive and durable. They have the highest wind, fire, and impact resistance of any other roofing option, giving you peace of mind. Both are snap-locking, concealed fastened products that offer 16" coverage. The difference between the two is subtle, but these panels are anything but. As the manufacturer, Mansea Metal will custom cut the panels to your exact specifications, saving you valuable installation time and money. With more than 30 years' experience in the industry, we understand how important your project is and will work with you every "inch" of the way.

QUICKSEAM & QUICKSEAM PLUS

GENERAL INFORMATION *(both)*

Slope: Minimum recommended roof slope is 3:12.

Coverage: Available in a 1-1/2" rib height with a 16" coverage width.

Length: Minimum cut length is 1'-0." Maximum recommended cut length is 53'-0." *Longer panels need special consideration for erection, packaging, and shipping.*

Substructure: Designed for use over a solid substrate. *Uniform and properly aligned substructures are necessary to avoid panel distortion.*

Gauge: Available in 26 gauge and 24 gauge in Galvalume and Valspar WeatherXL colors.

Fasteners: Quickseam & Quickseam Plus are concealed fastening, snap-lock products. Contact your representative for assistance in choosing the proper fastener for your project.

*all panels are subject to surface distortion when fasteners are improperly applied. Fasteners that are over-driven will cause stress across the face of the panel at or near the point of fastening.
